MSF30322 - Certificate III in Cabinet Making and Timber Technology

(CRICOS Course Code: 120476K) https://training.gov.au/training/details/MSF30322

(Please click on the link for more information and status of the qualifications)

DESCRIPTION

Workers with this qualification have tradesperson-level skills in the manufacture and/or installation of products, including furniture and cabinetry, made from timber and other materials.

They have core skills in tool use, measuring, drawing (including computer-aided design), interpreting work documentation, preparing cutting lists, communication, teamwork, and safe and environmentally sustainable work practices. They may have specialised skills in wood machining, cabinet and furniture making, kitchen and bathroom construction and installation, marine cabinetry, coopering or drafting.

Work is in a defined range of skilled operations, usually within a range of broader activities involving established routines, methods and procedures, where some discretion and judgement is required in the selection of equipment, services or contingency measures. Individuals collaborate with others to achieve quality outcomes and take responsibility for their own work. They may have some limited responsibility for the work of others.

Kitchen and bathroom installers must be licensed in some states, and induction training is required for those working on construction sites.

TRAINING DELIVERY

This course is delivered using a blended learning approach, including classroom delivery, a learning management system, and workshops in a simulated workplace environment. The simulated environment meets industry requirements outlined in the units of competency and assessment requirements.

At ANC College, simulated assessments provide learners with access to industry-standard equipment and resources, reflect real workplace conditions, present realistic scenarios, and require learners to demonstrate skills under typical workplace time constraints and interruptions.

A range of teaching and learning strategies is used, including practice exercises, context-based classroom activities, learner workbooks, and assessment tasks that reflect real workplace processes and contingencies.

DURATION

This course is scheduled to be delivered over 52 weeks of full-time study including 8 weeks holiday - 20 hours per week of scheduled time each week. Students need to gain competency in 25 units to successfully complete this course.

RECOGNITION OF PRIOR LEARNING AND CREDIT TRANSFER

The underlying principle of Nationally Recognised Training is that a learner does not have to repeat training and assessment that has already been undertaken.

ANC has a Recognition of Prior Learning (RPL) and Credit Transfer Policies and Procedures and can be found at ANC's website, which outlines in detail a process to be followed for granting recognition and credit transfer. This is supported through the RPL guidelines for this qualification which focus specifically on all units.

Learners are encouraged to apply for RPL prior to or immediately after formal enrolment but prior to the facilitated delivery of units to ensure that they do not miss any training opportunities offered should they be unsuccessful in the RPL process.

Credit Transfer relates to the recognition of learning achieved through formal education and training, and involves assessing a previously completed course or units to see if it provides equivalent learning or competency outcomes to those required within the current course of study. Learners must provide transcripts of results and/or statements of attainment for credit transfer to be assessed.

Where a learner is successful in the RPL or Credit Transfer (CT) application, the units to be undertaken and course duration will be adjusted accordingly.

Where RPL is granted, learners do not have to participate in further training and assessment for skills and knowledge that they already possess.
